Scripting: PowerShell, Bash
Relevant Coursework: Networking, Systems Administration, Cybersecurity, Databases, Programming
Awards: Florida State University President's List, Cheryl & Joel Rosenfield Scholarship

Technical Experience

Collegiate Cyber Defense Competition (CCDC)

- A competition that exercises both technical and business skills with a focus on the operation aspects of managing and protecting an existing simulated corporate network infrastructure.
- With the interaction of Windows, Linux and Active Directory the team had to protect, adapt and fend off incoming threats to the systems without jeopardizing the user-based architecture of the network.
- Supported and maintained enterprise Windows and Linux systems in a live, high-pressure environment requiring rapid troubleshooting and issue resolution.
- Performed incident triage, system analysis, and remediation while maintaining uptime for critical business services.
- Strengthened endpoint and Active Directory configurations to improve system stability and reduce vulnerabilities during active system disruptions.

Wedding Guest Management Web Application

- Developed a full-stack web application using Node.js (Express), MySQL, and JavaScript to manage and display guest data.
- Built API endpoints and integrated a database to support dynamic data retrieval and user interaction.
- Debugged and resolved issues across frontend and backend components, including API responses and database queries.

Leadership Experience

FSU Cybersecurity Club Jan 2023-Present
Vice President & Secretary

- Led coordination of cybersecurity activities, including CTFs, competitions, lab environments, and hands-on workshops, driving participation in offensive and defensive security skill development
- Organized and delivered peer-led technical workshops on topics such as network security, system hardening, and threat detection, strengthening members' practical cybersecurity skills

FSU STARS Alliance Mar 2025-Present

- Engaged with diverse groups of students to inspire interest in STEM careers, fostering inclusivity and future growth in technology
- Represented STARS in a national leadership capacity, demonstrating professionalism and effective communication to a large audience

Professional Experience

FSUshadow, Florida State University March 2025

Participant: RF-Smart

- Engaged in a shadow experience that included sitting in on scrum meetings, weekly leadership meetings, discussions with leadership, and learned skills to be successful in the industry.

FSU IT Technician for College of Criminology Jun 2024-Present

- Aid and work with faculty and staff for all technical issues, including but not limited to issues associated with Active Directory, Group Policy, DNS, Servers, and various applications.
- Communicate effectively and consistently with faculty and staff to keep them up to date on the solution to said issue through a ticketing system.
- Work with various OS to reimage and deploy computers, wipe hard drives to surplus machines, and keep network connections up and running.

Sandra G. Green Legal Assistant Sep 2023-Jun 2024

- Provided professional client support through phone, email, and written communication, ensuring clear and effective information delivery.
- Managed documentation, case files, and deadlines with strong attention to detail and accuracy in a high-responsibility environment.

Walgreens Customer Service Associate Mar 2020-Aug 2023

- Delivered customer-focused support in a fast-paced environment, resolving issues related to retail systems and technology-based services.
- Assisted customers with technical systems including photo processing equipment, mobile applications, and point-of-sale systems.
- Adapted communication style to meet diverse customer needs and resolve issues efficiently.

Community/Volunteer Involvement

Technology Student Association (TSA) National Conference – STARS Alliance

Presenter & Mentor

- Engaged with diverse groups of students to inspire interest in STEM careers, fostering inclusivity and future growth in technology.
- Delivered interactive workshops to high school students on leadership, creativity, and innovation in technology fields.
- Represented STARS Alliance in a national leadership capacity, demonstrating professionalism and effective communication to a large audience.
